In the beginning of 2012 we had an election for the president of NC PIARC Slovenia and our former president, mr. Žavrlan, was again given the opportunity to lead our organization. The focus of our activities in the year 2012 has not changed much since last year and will be focused mainly on improvement of the recognition of our national organization in Slovenia and abroad. For that purpose we have already renovated our official website that is now more in accordance with the PIARC website. We are working on advertising and PR activities, we are planning to re-publish a small brochure for the presentation of our association which we will be distributing on all domestic and foreign meetings that we will attend (something we planned but were unable to carry out in 2011).

Another concern that presented itself some 2-3 years ago and is only now heavily felt in Slovenia is the difficult financial situation that Slovenian construction companies have found them selves in. We at NC PIARC Slovenia are doing our best not to let the membership of our national committee drop too much, some changes in membership have none the less occurred.

We are involved in the organizing activities for the biggest roads event in Slovenia, namely the 11<sup>th</sup> Slovenian Road Congress and parallel with that event the meeting of TC 3.2 that will also be held in Slovenia this autumn.
